

ZIYAD ALFAIFI

SYSTEMS DEVELOPMENT & SECURITY

aziad925@gmail.com | +966507080683 | LinkedIn: linkedin.com/in/ziyad7h | Portfolio: ziyad7.com

PROFESSIONAL SUMMARY

Results-driven IT Professional specializing in Systems Development and Cybersecurity, with a proven track record in building secure, scalable digital solutions and optimizing user experiences through modern tech stacks.

EDUCATION

Bachelor's Degree - Information Technology | Jazan University 2022 - 2026
Specialized in Information Security. Relevant coursework: Network Security, Cryptography, and Database Management.

WORK EXPERIENCE

Data Analyst Trainee | Summer Training Program Jun 2025 - Aug 2025 Abha, Saudi Arabia

- Orchestrated complex dataset analysis to generate actionable insights, improving report accuracy by 15% through trend identification.
- Engineered 5+ interactive Power BI dashboards to visualize critical KPIs, streamlining data-driven decision-making for management.
- Provided technical support and system maintenance, effectively reducing operational downtime by 10%.

PROJECTS

Security Operations Center (SOC) Dashboard
Developed an interactive SOC dashboard using Python, mapping security alerts to NCA ECC compliance frameworks while ensuring clear incident visualization through end-to-end testing.

Smart City Dashboard
Developed a smart web-based dashboard for managing city reports and health-related cases, integrating interactive map APIs with a responsive HTML/CSS UI.

Personal Portfolio Website
Architected and developed a modern responsive portfolio website using React and advanced CSS interactivity to showcase technical expertise.

Online Bookstore Website
Engineered a full-featured e-commerce interface using JavaScript, featuring optimized product filtering and secure navigation flows.

CERTIFICATIONS

CompTIA Security+ Course - Cyberani
The Foundations of Cybersecurity - Kennesaw State University
Introduction to Cybersecurity Careers - IBM
Fundamentals of Artificial Intelligence - SDAIA
Analyzing and Presenting Data Using Excel and Power BI Software - TVTC
Build an AI Agent - IBM
